Office Assistant

Adventure Education Tours Pvt Ltd

2021 – Present

- Managed flight and train bookings for clients and staff, ensuring smooth travel arrangements.
 - Coordinated schedules and itinerary planning, demonstrating strong organizational skills.
 - Provided customer support related to travel inquiries.
-

Technical Skills :

- Front-End Development: HTML, CSS, JavaScript, React.js
- Frameworks & Libraries: Bootstrap 5, jQuery
- Web Development Tools: Version control (Git)
- Other Skills: Responsive Design, Cross-Browser Compatibility, UI/UX Principles
- Basic understanding of APIs and JSON
- Familiar with Chrome DevTools & VS Code

Soft Skills:

- Excellent communication
 - Team collaboration
 - Problem-solving
 - Adaptability
-

Projects :

1. Web-Based Authentication Module Using JavaScript and Local Storage

Developed a responsive login and registration system with real-time password validation, toggle visibility for inputs, and local storage for user data. Focused on mobile-friendly design and seamless form switching for an intuitive user experience.

Technologies: HTML5, CSS3, JavaScript, Font Awesome

Github Link : https://heenalmewada.github.io/authentication_system/

2. My Creative Web Portfolio

Created a responsive login and registration system featuring real-time password validation, input visibility toggling, and local storage for user data. Emphasized mobile responsiveness and smooth form switching for an improved user experience.

Technologies: HTML, CSS, JavaScript, Font Awesome, Responsive Design

Github Link : https://heenalmewada.github.io/my_portfolio/

3. To-Do List Web Application

Developed a responsive task management interface with HTML, CSS, and JavaScript, featuring task addition, deletion, completion toggling, real-time serial updates, and inline input validation for improved usability across devices

Technologies: HTML, CSS, JavaScript, Font Awesome, Responsive Design

Github Link : https://heenalmewada.github.io/to-do_list/

4. Swiggy Clone Development

Built a responsive Swiggy clone using React, React Router, and Redux for seamless navigation and state management. Implemented key features including dynamic routing, interactive add-to-cart system, and real-time UI updates with React Hooks (useState, useEffect). Demonstrated strong understanding of component architecture, user experience, and modern web development best practices

Technologies: React.js for building the user interface, Redux for state management

5. Responsive Front-End Web Development for Ice Cream Parlor

Developed a responsive and visually appealing ice cream shop website using HTML, CSS, and Bootstrap. The design features a dynamic header with a background image, an organized navigation bar with brand placement, and engaging sections showcasing flavors, categories, and services. Implemented interactive elements such as hover effects, hover-triggered buttons, and animated images to enhance user experience. The footer provides essential contact information and quick links, ensuring easy navigation. Overall, the project demonstrates proficiency in front-end web development, responsive design, and user interface aesthetics.

Technologies: HTML, CSS, Bootstrap, Responsive Design
